Key Features and Characteristics

Automated Efficiency

Processes cartridge cases swiftly, turning days or weeks into minutes. Its rotating tray facilitates the handling of numerous cartridge cases with ease.

Intuitive Operation

Features an easy-to-use interface, including a straightforward touch screen and user-friendly web and mobile applications, eliminating the need for specialized training.

Trace Evidence Preservation

The use of innovative casing containers* from **Loci Forensics B.V.** ensures the integrity of DNA and fingerprints, streamlining the ballistic analysis without compromise.

Advanced Technology

Employs state-of-the-art algorithms for precise analysis, building on over 30 years of innovation in ballistic identification.

Actionable Insight

Provides immediate investigative insights, identifying the number and caliber of firearms involved and recommending the optimal cartridge cases for submission to your Ballistic Identification Network (e.g., NIBIN).

IBIS ClearCase represents the future of automated cartridge case triaging, designed to meet the critical demands of modern law enforcement with unmatched efficiency and reliability.
